signcode® colors

MADE IN EU design by KD

IT L'innovativa segnaletica signcode colors offre un sistema direzionale a colori integrato nella cornice, adatti per indicatori a bandiera verticali o orizzontali. oltre ai 4 colori standard della segnaletica di sicurezza, diamo la possibilità di scegliere fra ulteriori 4 colori. come già previsto dal sistema signcode, anche in questo caso sono disponibili le due versioni: con pannelli in alluminio per stampa diretta o con un protettivo trasparente in PS, che permette l'inserimento di stampe realizzate su supporto cartaceo. entrambi i sistemi sono a prova di manomissione, ma permettono comunque una semplice e veloce sostituzione d'informazioni evitando di smontare l'intera targa. signcode colors: segnaletica innovativa con un moderno sistema direzionale a colori.
